WORK EXPERIENCE

Stony Brook Department of IT
Student Technologist

Stony Brook, NY
January 2025 - Present

- Develop and facilitate engaging webinars and in-person trainings on academic technology platforms.
- Designed and distributed promotional materials across digital and print media to drive engagement.
- Provide frontline technical support for faculty, staff, and students; contribute to resource documentation, workshop planning, and IT troubleshooting initiatives.

CAPA

Instructional Aide

Flushing, NY
June 2023 – September 2023

- Assisted educators in delivering material to support diverse learning needs, reinforcing classroom material through creative and engaging activities.
- Collaborated with educators and aides to develop adaptive lesson strategies, promoting student success.
- Cultivated strong communication, improvisation, teamwork, and leadership skills.

PROJECTS

Portfolio Website

May 2025

- Built an interactive web app using React and Next.js framework to provide the user with a fun and engaging experience
- Designed a custom wireframe with aligned graphics using Figma and Aseprite
- Implemented multiple React libraries to simplify and optimize the user experience

NYC SAT Ranker Website

May 2024

- Developed a data-driven web tool analyzing SAT scores across New York City schools using NYC Open Data, a RESTful API.
- Programmed interactive visualizations and dynamic content displays using JavaScript, HTML, and CSS.
- Strengthened data visualization, front-end design, and data processing skills.

EXTRACURRICULARS

Stony Brook Computing Society
Member of Project Quack Team

Stony Brook, NY
October 2024 – May 2025

- Collaborate with peers in a structured team environment to design, code, and deliver project milestones.
- Enhance real-world coding proficiency and agile teamwork through iterative project development.

Hopper Hacks Hackathon

Stony Brook, NY

Runner-up

February 2025

- Created *Hopper's Odyssey*, an interactive pirate-themed web app using JavaScript, HTML, and CSS that lets users explore global cuisines
